Summary

I am a second-year BCA student with a focus on front-end web development. My proficiency lies in crafting visually appealing websites, and I bring a strong command of JavaScript to enhance user interfaces. I am dedicated to continuous learning and skill development through hands-on projects, driven by my passion for web development.

In addition to my expertise in JavaScript, I have a solid foundation in programming languages such as C and C++. I am well-versed in leveraging frameworks like Bootstrap and Tailwind CSS to streamline the design process and ensure responsive, user-friendly websites. My experience extends to working with React.js, WordPress, Node.js, and Express, showcasing a diverse skill set in web development.

Notably, I have gained valuable practical experience with the MERN (MongoDB, Express.js, React.js, Node.js) stack, accumulating one year of hands-on involvement. This experience has honed my ability to create dynamic and scalable web applications.

I am enthusiastic about contributing my skills and knowledge to innovative projects, and I am eager to further expand my expertise in the ever-evolving field of web development.

Experience

Code clause   2023-05-01 - 2023-06-01
Web Developer Intern

in this Internship, I learn how to make real-life website and how the real world thing works and this is my best experience in web development

Null Class   oct-nov 2023
Full Stack Web Developer Intern   remote
🔗 Project Made during Intership

this training, I learned about many concepts of MERN (MongoDB, Express, React, Node.js) and also how MongoDB Atlas works. I learned how to create a Stack Overflow clone using the MERN stack and how to connect with a database. In this training, I made a Stack Overflow Clone, and I also discovered many interesting things. Currently, I am doing an internship at Null Class, which is one month long
